

Kimberlee Smith Centera

To Whom It May Concern:

During the past four years, I have worked with Tony Barnaba from Greenridge Landscaping for landscaping projects and biweekly landscaping at my residence in San Diego. Greenridge offers top-notch quality and customer service and I am always pleased with their work.

In particular, Tony helped me redesign and modernize the plants in my front yard and back yard garden last year. Tony worked closely with me to carefully select plants that reflected my desire for color as well as drought control. I was very pleased with Tony's attention to detail and concern for quality.

Please consider Greenridge Landscaping for all your corporate landscaping needs. It is my pleasure to recommend the landscaping services of Greenridge to you.

Sincerely,

AES WIND GENERATION
